OUR STORY

Solar91, a passion project by 4 engineers cum environment enthusiasts, dreams of **Energizing India**.

We envisage every household and industry with available roof space use the same for meeting part of its power requirements, thus reducing the load on the grid and contributing to a greener and far less polluted environment for future generations. For us, it is not just a company-client relationship – it is a partnership that we enter into, to help conserve the environment through a **financially sustainable solution**.

Over the last **5 years**, we've worked with over **50+ clients across 9 states** and successfully completed **70+ residential, commercial and industrial projects** and we continue working, diligently and relentlessly because we believe, **the future of solar is bright!**

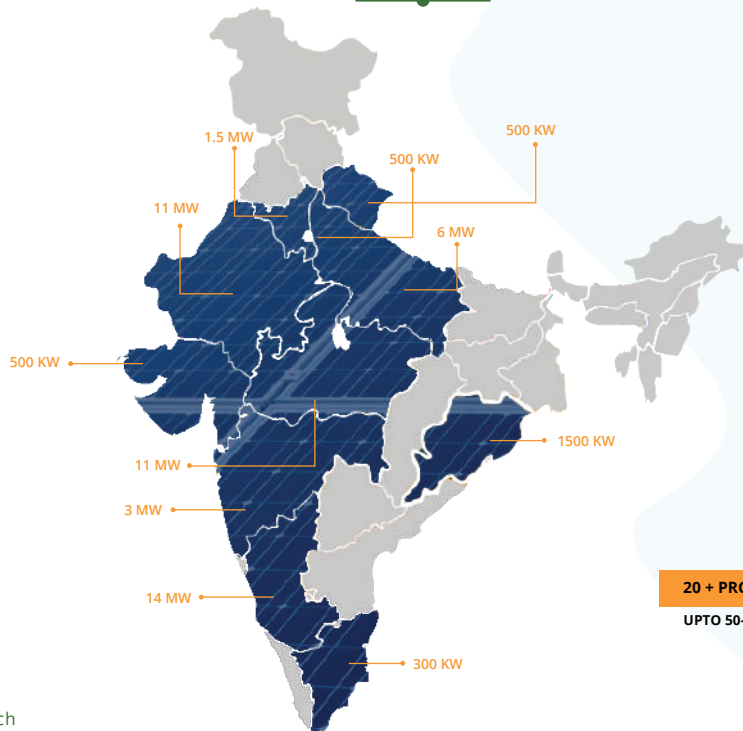

OUR FOOTPRINT

ENERGIZING INDIA

OUR ACHIEVEMENTS

SERVICES

EPC SOLUTIONS

Ground Mounted Solar PV

Rooftop Solar PV

Grid Connected

Off-Grid Battery

Hybrid

WHY SOLAR91?

Solar91, with its experience in erection & commissioning of turnkey solar power projects, is best placed to assist industrial and commercial establishments save on **power costs**.

For us, it is not just a **company-client relationship**, it is a partnership that we enter into to help conserve the environment through financially sustainable solutions.

We integrate cutting edge solar technologies and equipment into our projects to increase generation and work to ensure the highest levels of **client satisfaction** through our support system.

Our financial models lay bare the high returns from **capital investments** made in this sector.
